Wholesale Soap Establishment!
AMERICAN
CREAM SOAP COMPANY,
Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the
LAWS OF THE U. STATES, A. D. 1851.
CHAS. W. DENNISON & CO.
PROPRIETORS FOR THE STATE OF MAINE.

C. W. D & CO are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co., in all their varieties at their Factory,
Nos. 31 & 33 UNION ST., Portland, Me.,
CONSISTING OF
American Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans,
Toilet, Shaving, Shaving Cream,
Transparent, Cream Soap
Preparation, &c., &c.

These Soaps are presented to the public, after having been thoroughly tested by ourselves and friends, as the most Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.

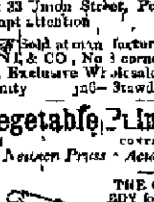

They do the work of the laundry in simply warm water, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Wash-board—consequently a large amount of Fuel and wear and tear of clothing is saved and not one fourth the amount of Labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the hold of the dirt without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds sufficient to cover them—there let them remain a few hours, (or all night if convenient,) then, with a slight hand rubbing and good rinsing they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls &c may be washed with perfect safety. Cotton Goods, Prints of any color that will fade in water alone, when washed with these Soaps, according to the directions, will not change, but remain firm, and the colors rendered more brilliant. For washing Woollens, Prints, Gilding, Mirrors, Maps, Paintings, Lamps, Silver Ware &c., &c, these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used and besides this, the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c, &c, and the necessity of boiling is wholly avoided.

We ask for this Soap a fair trial, choosing to trust to its own merits rather than resort to the publication of a long list of certificates from those who have used it wherever it has been manufactured, which we have in our power to do were it necessary.

For sale, Wholesale only, at 31 & 33 Union Street, Portland, and retail by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C. W. D & Co. postpaid, Nos. 31 & 33 Union Street, Portland, Me., will receive prompt attention.

Sold at manufacturer's prices by G. F. SARGENT & CO., No 3 corner Smith's Block, Bangor, Exclusive Wholesale Agents for Bangor and vicinity. jn6—3tawd&w

PATENTS.
American and Foreign Office
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON
No. 76 State Street, opposite Kilby St.,
BOSTON

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, FIFTY DOLLARS (instead of twenty as made by other ...) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents

During the time I occupied the Office of Commissioner of Patents R. H. Eddy, Esq. of Boston did business at the Patent Office as solicitor of Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

CITY OF BANGOR.
An Ordinance for the Licensing and Regulation of Hacks, Porter Carts, and other vehicles in the City of Bangor.

SECT. 1. Be it ordained by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled—
That every Hack, Hackney Coach, Porter Cart, Wagon, Jigger, Truck, Cart, Dray, Hand Cart, and all other vehicles whatever used or employed, wholly or in part, in said city for the conveyance of passengers or freight, shall be licensed as hereinafter provided, and shall have placed upon the outside, and upon each side of the same, the name of the owner and the number of the license in plain legible words and figures, and so that the said words and figures may be distinctly seen, and if the owner of any such vehicle shall use, or suffer the same to be used, or if any other person, shall use any such vehicle without being licensed as hereinafter provided, or without having the name and number so placed as aforesaid, they, or either of them, shall forfeit and pay a fine not less than one dollar nor more than twenty dollars for each offence.

SECT 2. Be it further ordained,—That the Mayor and Aldermen may, from time to time grant licenses to such persons, and upon such terms, as they may deem expedient to have a stand for, to use and to drive any such vehicle, as aforesaid, within said City of Bangor, and all licenses granted as aforesaid shall expire on the first Monday of May next after they are granted, unless they are sooner revoked by the Mayor and Aldermen, which they may do at their pleasure.

SECT. 3. Be it further ordained—That the person in whose name a license is taken out for any such vehicle, shall, for all the purposes of this ordinance be considered as the owner of the same, and liable to all forfeitures, penalties and herein contained, unless upon the sale of any such vehicle notice thereof be given to the City Clerk, and the license delivered up to him.

SECT. 4. Be it further ordained—That for every license so granted there shall be paid to the City Clerk, for the use of the city fifty cents; and the City Clerk shall make a quarterly report to the City Council of all sums of money so received, and shall pay over the same to the City Treasurer—and no license shall be considered as granted until the same has been taken and paid for.

SECT. 5. Be it further ordained—That the Mayor and Aldermen may, from time to time, as they shall judge proper, appoint such and so many places to be stands for the aforesaid vehicles as they shall deem necessary, and no person owning or using any vehicle intended to carry for hire in said city, wholly or in part, shall, while unemployed or waiting for employment, stand in any place in the streets or public squares of said city, other than some one of those places so assigned by the Mayor and Aldermen, or, if he shall have a specified stand assigned to him by the Mayor and Aldermen, in any place other than such specified stand; and any person who shall violate the provisions of this section shall forfeit and pay a fine not less than one dollar nor more than twenty dollars for each offence.

SECT. 6. Be it further ordained—That the City Clerk is hereby authorized and directed to procure a suitable book, and to record therein the name of every person licensed as aforesaid, the date and number of the license, and place assigned to him (if any) for a stand, and all revocations and renewals of licenses.

SECT. 7. Be it further ordained—That all penalties and fines incurred under this ordinance shall be recovered by an action of debt, in the name of the City Treasurer, for the use of said city, or the same may be recovered upon complaint made to the Judge of the Police Court by the City Marshal, or either of his Deputies.

SECT. 8. Be it further ordained—That an ordinance for the regulation of Public Porters in the City of Bangor, passed December 24th, 1850, be and the same is hereby repealed.

Whig and Courier

For the Whig and Courier
The Absent and the Lost.

Vacant places round the hearth stone
Lonely hearts, and our band,
Tell of absent dear ones lingering
Far upon a distant land

Tears that will not cease their falling
Sighs, that swell the longing breast,
Tell of voices once that cheered us
Waking now among the lost.

And our hearts have all the rapturous
Greetings that they had of yore—
Absent ones and loved and lost ones
Shall we see no—NEVER MORE?

And our spirits fondly yearning
Turn with sickened hope away
Looking for the forms that liked us
See we but the forms of clay?

Lost ones never more to meet us
In this vale of tears and pain
But ye absent! loved and absent
Ye can bless us yet again.

TASTE IN DRESS EXTRAVAGANCE.—Some one has said that a Parisian grisette, with a ... would conquer the world ... while an American woman with all her shawls ... and diamonds looks only like an ... dressed clothes horse. There is some exaggeration in this statement, but more wit and still more truth. The women of France unquestionably have a better taste in dress than those of England, or even America. In both our mother country and ours there is too much of mere ... and too little ... The ladies of Anglo-Saxondom seem to think that the more they spend on dress the prettier they look. Accordingly one sees little women overlaid all over with lace or buried in the folds of stiff brocade or almost lost to sight under a puffing velvet cloak, with capes ... and on either side huge gigantic wings ... whilst a tall woman such as the latter ... tricked out in tight sleeves and striped ... the costliness of the material being regarded by the wearer as sufficient compensation for the incongruity of style.

A French servant girl often has better taste. She knows that it is not so much the ... the material as the way it is made up and the manner in which it is worn that gives the ... air of elegance. A muslin, a gingham ... properly ... harmony between ... and the colors has more ... attractions than ... an American lady ... Many a wife ... if she would but know it in her neat morning frock of calico ... than in the ... which she dignifies with the title of full dress. Many an unmarried female first won the heart of her future husband, in some simple unpretending attire which if consulted about she would pronounce too cheap for ordinary wear, but which was ... to the figure, face and carriage, ... her youth and beauty wonderfully. If the sex would study taste in dress more, and care less for mere expense they would have no reason to regret it. At present, the extravagance of American females in their attire is proverbial. We wish we could say as much for their elegance in the same line.—Ledger

PRUNING ORCHARD.—It is a very good rule and the neglect is followed the better, that no shoot should be allowed to remain longer than one year on a tree, that will require removal at any future time. By observing the form, which a young tree should take, and rubbing or cutting off improper or unnecessary shoots in time any severe pruning at a subsequent period, may be avoided. Hence, the remark has much truth in it, that pruning saws ... should never enter an orchard—which is strictly correct in all cases provided the needless shoots have been lopped in time when the work may be done with the pocket knife only. A very common error is to allow the growth of too many branches, the result of which is they become overcrowded, ... the leaves and new growth are small and imperfect, and as a necessary consequence, the fruit is half grown and stunted. The ... should therefore be left open, the branches few, and so evenly distributed throughout ... at none shall be crowded and all ... the action of air and sunshine, and all contribute to thrifty and vigorous ... A moderate share of care and attention to these particulars ... be made to give a very different report of orchards, from that now presented by the ... mass of apples sold in market. Larger ... larger crops, and better satisfied purchasers would be the result,—and more striking ... provided good cultivation were given in connection with judicious pruning.

Now is the time that young orchards ... be examined and treated in the way we have pointed out.—Country Gentleman

Whig State Convention.

The Whigs of the several cities, towns, and organized plantations in the State of Maine, are requested to send delegates to meet in Convention at PORTLAND, on THURSDAY, the 29th of June next, at 10 o'clock A. M., for the purpose of nominating a Candidate for Governor and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz:—Every city, town, and organized plantation, will be entitled to one delegate, every city, town, and organized plantation, having 1000 inhabitants, will respectively be entitled to two delegates, those having fifteen hundred inhabitants, to three delegates, those having two thousand inhabitants to four delegates, those having twenty five hundred inhabitants to five delegates, and those having more than twenty five hundred inhabitants an additional delegate for every additional one thousand inhabitants—the census of 1850 to be taken as the basis of representation.

By order of the Whig State Committee.

May 22, 1854.

WHIG CAUCUSES.

The Whigs of the city of Bangor are notified to meet in Caucus, in their several Wards, at the usual places of holding Ward meetings, on FRIDAY evening, June 23d, at 7½ o'clock, for the purpose of choosing two delegates in each of said Wards to attend the Whig State Convention to be held in Portland on the 29th inst.

They are also notified to meet in General Caucus, at the City Hall, on SATURDAY evening June 24th at 7½ o'clock for the purpose of choosing two delegates at large to attend the State Convention. Per order of City Committee.

Bangor, June 22 1854.

The "regular" democratic Convention, held at Portland on the 21st, was pretty fully attended—between five hundred and six hundred delegates being present. Unanimity seemed to be the great object, and as the remnant democrats of different stripes had previously held their separate conventions, and made their own nominations, harmony was not very difficult of attainment. The faint chance of an election which any candidate nominated there could have, might have facilitated this harmonious action.

Mr Pillsbury, who claimed the nomination by right, but who was regarded as too badly lamed to run again, consented to waive his claim, upon condition that the convention should unanimously agree upon some other person. He was taken at his word, and Hon Albion K Parris, of Portland, was nominated by resolution, without any opposing votes.

The published proceedings of the Convention had not come to hand when this article was written—but we understand that the platform was of exceedingly simple construction—consisting in fact of but a single plank—and that of the narrowest dimensions. One resolution only was passed—pledging the Convention simply to sustain Albion K. Parris for Governor. Nebraska, the Baltimore platform, the Cuban question, the Maine Law, and other practical issues of the day, were ignored, and the mum policy adopted by all that remains of the great democratic party of 1852. The omission to endorse the Nebraska bill is tantamount to a rebuke of the administration—that measure having been declared a test of democracy by the President's central organ. The omission, however, was more a matter of policy than of opposition to the bill, which, we take it, three fourths of the delegates were ready to endorse. To preserve harmony in the convention, and with the hope of retaining votes for its candidate, the mum policy was adopted. But when the ballot-boxes are opened we think the few of the people will be found voting for any man who is not outspoken against the administration doctrines of the day. Mr. Parris is a respectable man—but the people will not vote for him upon trust.

The Bangor Democrat, in introducing an extract from a speech of Mr. Clay deprecating the formation of sectional parties, eulogizes the dead statesman in a style which would have astonished its readers during his lifetime. We have no doubt, however, that the Democrat is now sincere. But while attempting to apply Mr Clay's remarks to the present effort to unite northern freemen against the encroachments of slavery, it should remember that we have been *forced* into an apparently sectional position, by the acts of the slave power itself—acts which have become so arrogant and dangerous to the perpetuity of our free institutions which point so directly to an entire overthrow of freedom in this Union, and to disunion itself, that they can no longer be safely borne. The latest and boldest of these acts was the abrogation of a compact which had secured to freedom all the vast unorganized territories of the United States lying north of the latitude of 36 30—an abrogation which opened to slavery's territory of more than five hundred thousand square miles, and declared in principle that all future territories of the United States should be likewise opened to slavery. In thus prostituting the national legislation for the advancement of an institution which is not National in its character, the South itself has forced a sectional issue upon the country. For the consequences it is alone responsible. The North demands only its rights under the constitution—but will submit to no further encroachments.

The members of the Penobscot Mutual Insurance Company have been highly favored in the management of that Company. The amount paid for losses exceeds sixty thousand dollars since the formation of the Company, and those who have had first class risks since the commencement of the Company's operations have paid a trifle less than one quarter of one per cent a year for their Insurance. The Company is liberal in adjusting its losses and pays promptly. Some towns in the State where agents of foreign Companies have procured policies the rates have proved enormously high, and oppressive. As the Penobscot Mutual is located in this city we take pleasure in making this reference to its management.

Godey's Lady's Book, for July is out in good season, and is the first number of a new quarter of a century. Among the illustrations is a beautiful engraving of Noah receiving back the dove into the Ark, taken from a picture never before seen in this country. There are many other elegant illustrations, and the usual variety of useful and entertaining matter.

In one of the shoe manufacturing towns in Massachusetts, a minister was settled and soon after took to his new home a wife, a woman of education, refinement and accomplishments, from a distant part of the country. The people were much interested in the new comer and made large contributions to fit up the new home of the beloved pastor. His wife determined to be useful in her new sphere and was so all circles, among the rich and the well to do and the comparatively poor. But wherever she went, in all the home circles, there were the shoes, and all were interested in binding and stitching. The work of the minister's wife was unlike that of the ladies of the parish. They could turn their hands to her work, but theirs, to her, was worse than Greek. She felt embarrassed—felt that she was ignorant of an important and profitable department of labor appropriate to ladies, and like a true woman she set herself to learn the art of shoe-binding, and in a few months she was interested in the general employment of the ladies of the parish, and her basket of shoes with the rest, and could add to the material ornaments and articles of use to her house by the application of her needle and her skill, a fine instance of the favorable effect of a fashion in behalf of useful industry.

Thoughts and Things at Home and Abroad. By Elihu Burritt, with a Memoir by Mary Howitt. Boston: Phillips, Sampson & Co. 1854.

Of the self-made men of this age, Burritt is perhaps the most remarkable, both in the vast extent of his lingual attainments acquired by persevering and systematic study, and in the variety and depth of his knowledge in various sciences, the mechanic arts, and the political and civil economy of nations. But he is more than this. He is a Christian philanthropist and a man. Generous and noble influences sway his heart and direct all his energies to the amelioration and improvement of the great human brotherhood. And he is not the less a true patriot for being a large-hearted cosmopolitan.

A volume of such a man's thoughts and observations is pre-eminently worthy of a place in our literature. The one under notice comprises a large number of the most valuable sketches and essays of the author, and is done up in the handsome library style of the well-known publishers.

Portland and Montreal Railroad. The receipts for the week ending June 3d reached the sum of $18,244; and the business is steadily increasing. The State of Maine estimates the total cost of the line, through to Montreal, at $1,000,000. On this sum, 25,000 a week will pay six per cent. per annum—allowing one half the receipts to go for running expenses. During the week alluded to, about 6000 passengers were transported—4000 tons of merchandise—and 600,000 feet of lumber. The receipts of the road for the six months ending June 3d, were $285,463.

A portable telegraphic apparatus is sent out with the English troops to the seat of war. It has twelve miles of wire, and can be readily moved from place to place, for the purpose of transmitting orders on the field of battle or otherwise.

A Popular President. The Albany Evening Journal says, of President Pierce, with much truth, that the indications now are, that he will go out with even greater unanimity than he came in.

The break in the telegraph line mentioned yesterday, was at the crossing of the Kennebec river, above Bath. The communication was not restored in season for us to receive any despatches yesterday.

Maine Baptist Convention.

To the Editor of the Whig and Courier.

This body has been in session in this city for the two or three days past. It represents 291 churches with 19,852 communicants, and some 200 ministers. It has no ecclesiastical power. Consequently its sessions are mainly occupied with the consideration of various benevolent enterprises. Prominent among these is the work of Missions in Maine. The past year there has been raised $4,960 for this purpose. A Board located at Portland, with the Rev Dr Wilson as President, superintends these operations. Spirited addresses were made, in which the spiritual destitution of Maine, especially as compared with the Western States, was considered, and the means of its reduction. The education of the ministry was advocated in very powerful words by Rev. Dr Pattison of Waterville College and Rev Dr Parker of Massachusetts. The Rev. Dr Peck gave an interesting account of a recent visit to the Baptist Missions in India.

Sermons of a high character were preached by Rev Messrs. Knox of Lewiston, Butler of Eastport, and Child of Massachusetts. But the topic of most stirring interest was a report by a Committee, Rev. Dr. Pattison, Chairman, upon "the present grave aspect of public affairs induced by the aggressive movements of the slave power." The session of Tuesday evening was filled to a late hour with speeches from clergymen, showing that they are up to the emergency and ready to lead the people in firm and resolute resistance to the least forward movement of slavery, and the determination that it shall go back to its old limits. There was not a dissenting or faltering voice. Resolutions were unanimously adopted, affirming the right and duty of ministers to speak and act in political affairs, opposition to the fugitive slave law and the duty of urging its repeal, and the purpose to carry out these sentiments in refusing suffrage to men who will not publicly pledge themselves to maintain them.

Muskets against Spades. The United States army numbers about 10,000 men, who cost the country last year $8,325,240 for pay, subsistence, clothing, etc. The Illinois Central Railroad employ about 10,000 men who receive from the company $3,700,000 per annum. In three years they will make seven hundred miles of road, adding greatly to the wealth of the state and country. In thirty years the United States have spent $700,000,000, for which they have nothing to show but some old forts, guns, battered uniforms, and demoralized veterans.

The following resolutions were passed by the New Hampshire Whig State Convention. They assume a strong, but yet tenable ground upon the practical questions of the day.

Resolved, That the Constitution of the United States, based upon the principles of universal equality and right, was ordained and established to secure the "blessings of liberty," and for its preservation and extension—that it does not in any way favor the extension of human slavery, but is in spirit opposed to the spread of that great evil.

Resolved, That it was the policy of the fathers of the Republic, to confine slavery to its then existing limits, as is evinced by the passage of the ordinance of 1787, applied to all the territories of the Union, and by subsequent acts passed during the administrations of Washington, Jefferson, and Monroe.

Resolved, That the people of the Free States ought at once to take any and all proper measures in their power, to procure a repeal of so much of the Nebraska and Kansas bill as abrogates the prohibition of slavery, contained in the act of of 1820, and to labor at all times and seasons, until that prohibition shall be restored.

Resolved, That as a portion of the people of the Free States, we will never consent to the admission of any State from the territory in which it was prohibited by the act of 1820, unless slavery shall be forever excluded therefrom.

Resolved, That the attempt to extend slavery over a vast region, from which it was excluded by law, with the consent of the slaveholding States, ought to awaken the people of the free States to the aggressive character of slavery as a political power, and to unite them in a determined hostility to its existence, in any territory now possessed, or which may be hereafter acquired by the United States.

Resolved, That while we avow our determination to stand by the compact already made, creating an inequality of representation in favor of slave States now in the Union, yet as decent self respect forbids the extension of a principle so odious and degrading, and we are, therefore, unalterably opposed to the formation of any political connection with countries not now in the Union on such unequal terms.

Resolved, That the law known as the "Fugitive Slave Law," should be modified so far as to provide for the "*habeas corpus*," and a trial by jury in the place where the person claimed as a slave is found—holding as we do, that less deep injustice is to be feared from prejudice in *favor* of liberty in the *Free States* than from the opposite prejudices in the slave States.

Resolved, That to all members of Congress, irrespective of party, and especially to those noble representatives of the South, who have manfully struggled to maintain the public faith inviolate, we acknowledge a debt of gratitude due to faithful public servants, and honorable men.

Resolved, That we invite the co-operation of all the freemen of New Hampshire, who agree with us in the principles and purposes set forth, and that we cordially tender to them our hearty co-operation in the cause of freedom, and offer our confidence to those who will confide in us.

Hon. James Bell of Exeter, was nominated for Governor, by nearly an unanimous vote, on the first ballot.

The Convention was harmonious in its proceedings, and enthusiastic in its demonstrations to a degree beyond all preceding ones.

The Boot and Shoe Business. Of the great extent of this business in New England some idea may be formed from the following statements of the Boston Atlas.

Our boot and shoe business has doubled within a few years. We have no doubt that in our own city, where it nearly all concentrates, this business amounts to from $30,000,000 to $40,000,000 annually. The Boston Almanac gives a list of 169 wholesale boot, shoe and leather dealers, besides 44 who deal exclusively in leather.

Of these dealers, the heaviest firm is that of T & E Batcheller & Co, whose business last year amounted to $1,300,000, and who estimate their business for the present year at a million and a half. They deal entirely in goods of their own manufacture, having three establishments in North Brookfield (the largest of which employs 100 hands at working, each owning his own house and garden in the vicinity,) one in New Bedford, one in Shrewsbury, one in Plymouth, and one in Connecticut. Besides this firm there are ten or twelve others, doing a business of from half a million to a million of dollars or over, annually.

In 1845 there were 3,769,160 pairs of boots, and 17,128,152 pairs of shoes manufactured in Massachusetts, with an aggregate value of $14,799,140, and giving employment to 27,199 males, and 18,678 females. In 1850, the number of males employed, according to the United States census, was 31,555—more than double the number of any other trade, and more than double the number of cordwainers in any other State except New York, which has but about 21,000. It is probable that at the present time all the figures of 1845 are more than doubled. Besides this, there are great numbers of persons in the adjoining States, particularly New Hampshire, who work for Massachusetts manufacturers.

At the principal shop the leather is only "clicked" or cut out, mostly by the aid of light machinery, into soles, heels, uppers, counters, &c., the linings, counters, and straps are "skived" and pasted in, and the work is given out to the workmen, in lots or cases of 12, 20, or 100 pairs, as the case may be, and of different sizes. The shoemaker—the real manufacturer—then takes his work home, where his wife and daughters stitch, close and bind the uppers, and he himself and his boys do the bottoming. If his family is large or he employs a number of hands in a "team," a still further division of labor takes place. One hand tacks the in sole to the last and trims it, another draws the upper smoothly over the last, a third lays the "welts and "rans," and puts in the "shanking" and "filling," a fourth tacks on and trims the out sole, a fifth drives the pegs, a sixth pots on and shapes the heel, a seventh pares off and makes the edges, and the eighth workman puts the final polish on the edge with the heel ball and stone. The work is then returned to the manufactory, and the workman immediately receives his cash. The bottoms are then buffed smooth, and after the uppers have received an extra polish, the goods are packed into boxes, ready for a market at home, at the West, the South, California, Australia, South America or any other part of the globe.

Political. The Washington correspondent of the N. Y. Commercial Advertiser writes as follows:

Very important movements have been made here within the last few days. A party has been organized upon constitution principles. This party originated in the House of Representatives. It is said to embrace already some forty members of Congress and many prominent citizens. It is composed of both Whigs and Democrats. Mr Goodrich, a liberal Whig member from the western part of Massachusetts, is said to be the president of the incipient association. I have heard many prominent names mentioned in connection with it, and know that a large sum money has been already subscribed to promote its objects. It is not a party that favors the extension of slavery, and I will not undertake to say that it will favor filibusterism or even the immediate acquisition of Cuba by war. However, it is not to be like the 'Know Nothings,' a secret organization. Its principles are as I learn, soon to be avowed in the most imposing manner."

A Floating Anchor has been invented by Captain A F Lewis, now residing at Tuttle, Wisconsin. It is composed of planks, readily and firmly bolted together, in the form of a square-sail, say eight by ten feet, and let down over the bow of a drifting vessel to a depth sufficient to shield it from the action of surface currents, when it (as is will bring the vessel's head to the wind in any sea, and reduce her drift from four miles per hour to one. The opinion of nautical men will doubtless be taken with regard to it."

Col. Thomas H. Benton—"Old Bullion." Twenty years ago the newspaper attached to the party opposed to the Democracy of this country, which dared to utter a word laudatory of Col. Thomas H Benton, would be denounced and condemned as a vehicle capable only of treason. Now, we find him eulogized by the very party which then condemned him.

Col Benton has led a life of which any man might be proud to boast.

In domestic life no man has ever been more estimable than Col Benton. His life is destitute of reproach, and, in the evening of his existence he is regarded by all who regard worth for its worth, as the last and the holiest gift of God to those who would consummate the independence of a republic.—N. Y. Atlas.

Time, with its soothing influences, wears out prejudice. Col. Benton has conquered and subdued an array of enemies. He stands up in Congress, where he has stood for thirty years, "solitary and alone," the only survivor of a Senate of Giants. And he stands there without any impeachment of his honor or integrity. He stands there, on a great National question, the ablest and truest champion of Justice and Freedom.—Albany Journal.

From the N. Y. Express, June 20.

The homestead bill will pass. The anti-Nebraska Senators have determined to support it upon the ground that it is an antidote to the slavery clause of the Nebraska bill, and will give the country to free labor. A caucus was held by Senators, on the subject, at which it was agreed to take up the bill to day or as soon as the vote on the vetoed Indigent Insane Bill can be taken, and keep it before the Senate till disposed of. Its passage will be forced on Saturday. Then both Houses will be ready to fix upon the day for adjournment.

Washington June 19.

Intelligent and reliable gentlemen now in town, from Tennessee, and letters from that State, represent a very favorable public opinion there towards the Bell of the Senate, and Messrs Cullom, Etheridge, Bugg and Taylor of the House, for their opposition to the Nebraska bill. They will be sustained not only by the Whigs generally, but by many of the Democrats. The Whig journals of Tenn., are, I believe, united, in their support of Mr Bell and his associates above mentioned, and although a strong effort will be made by the administration presses, to break them down before the people, they have no fears for the result.

Disastrous Fire in Philadelphia. *Philadelphia*, June 20. The large Cotton and Wool en Mills in Jefferson and Mifflin streets, Kensington, was totally destroyed by fire this P. M.—caused it is said by the friction of the machinery.

There were 130 operatives in the building when the fire occurred, and the stairs were almost immediately enveloped in flames, and a terrible scene ensued. In the upper stories mostly females were at work who commenced jumping from the windows, and but for the active exertions of the firemen, with their hooks and ladders, all would have perished. It is reported that 15 persons are missing, and three lives lost—a man and two young girls are certainly lost.

Rhode Island. The Legislature adjourned on Saturday, after a session of one week. What a comfort it must be to have such a legislature. An important amendment to the Liquor Maine Law was passed. It authorizes the arrest, confinement and fine of any person found drunk in any of the towns of the State, but, if such intoxicated person shall disclose the name of the person who furnished the liquor on which he got drunk, and shall give evidence against said person, he may be discharged from imprisonment, and persons giving or selling liquors are liable to prosecution. The vote on the bill stood 43 yeas to 1, nays.

State Temperance Convention

The State Central Committee send forth this call to the friends of Temperance to meet in Portland July 6th and 6th. The meeting will convene in the City Hall on the evening of the 5th, at 7½ o'clock, and will continue through the day of the 6th.

The object of this Convention is, to make strong friends for the coming campaign, and to devise measures for prosecuting the good work of the Temperance reform.

It is of the highest importance to have a State Government which will thoroughly execute the liquor law, and such a government, by the united action of the temperance men, can be secured. Let then every part of the State be represented, that the campaign may commence in earnest and under the right auspices, AND THE WORK WILL BE DONE.

An infallible remedy for Bile, Jaundice, and Liver Complaints—Holloway's Pills. Extract of a letter from Jane Jenkins, of Apalachicola, Florida, to Professor Holloway—"I suffered for seven months from jaundice and bile, arising from a very disordered state of the liver. During this time although I tried many remedies I obtained no relief to my sufferings. At length I purchased a quantity of your Pills, and after using five boxes, I was perfectly cured, and with confidence recommend to others who are thus afflicted."

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma, and all disorders of the lungs. We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr C has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks—"It is evident that inhaling—constantly breathing an agreeable vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.— From the New York Dutchman of January 14th.

Dr Richardson's Sherry Wine Bitters have been sustained through more than one entire generation, and with a liberality unknown to any other medicine. An instance is not known by the proprietor, where they have not been of benefit to those using them for the diseases or complaints as recommended. Is not the long continued unwavering support, by the public of the *Sherry Wine Bitters*, sufficient evidence of its superiority over every other medicine offered for sale? It is manufactured precisely the same, and the component parts are the same, as they were at its first introduction. It contains no mineral substance whatever, and the public may be assured that it is the same *Richardson's Bitters* which throughout the New England States, the present rising generation have heard their fathers and mothers so often speak in praise.

Light House on Minot's Ledge.—A minute survey of these dangerous rocks has just been completed for the United States Light House Board, by William A. Williams, Civil Engineer. The base of the outer Minot will permit the construction of a stone Light House of sufficient dimensions to resist the force of the most powerful waves, and it is expected immediate measures will be taken to commence the work. This is a most important movement to the commercial community. Several vessels have touched upon the dangerous ledge, since the destruction of the iron light house in the great gale of 1851.—Boston Transcript.

Meeting of the Sons of Newburyport.

At the meeting of the Sons of Newburyport, held at the Police Court Room on Thursday evening, June 22, in order to adopt the preliminary measures as might be thought expedient in view of the invitation extended by the "Old Folks at Home," to the Sons and Daughters and former residents of Newburyport, to unite with the citizens of that city in celebrating the fourth of July, the meeting was called to order by John S. Sayward, and John Stuart appointed Chairman, and Wm. Coombs, Secretary.

Voted, That it is expedient for all the Sons and Daughters of Newburyport in Bangor, to accept the invitation extended to them by the citizens of their birth place to return to their old homes for the purpose of uniting in celebrating the anniversary of the Declaration of Independence.

Voted, To attend the celebration in a body, and for that purpose that Rev. S. L. Caldwell, John S. Sayward, Roger S. Howard, Simon T. Payson and Joseph Brown, be a Committee of Arrangements to report at an adjourned meeting.

Voted, That this Committee report as to the expediency of forming a permanent Association of Sons and Daughters of Newburyport, resident in Bangor.

Voted, To adjourn to Tuesday evening next, at half past seven o'clock, at this Court Room.

New Hampshire Legislature.

CONCORD, N. H., June 21st.

The Anti-Nebraska resolutions were debated at length, and made the special order of the day for Thursday.

The House then proceeded to ballot for the choice of a Senator to fill the short term. Six democrats were absent, and the ballot stood—whole number cast 314; necessary to a choice 153; Wells had 144, Eastman 89, Tappan 44, Morrison 22, Goodwin 2, Clark 2, Woodbury 1. No choice.

A second ballot was taken, which resulted in no choice.

The choice of Senator was then postponed by a vote of 154 to 149. Seven Democrats are absent, not voting, besides the Speaker.

MONS. CHIARINI,
Will exhibit in the City of Bangor, on MONDAY and TUESDAY June 26th and 27th—for Two Days only—on Summer-st. Common.

Sam Lathrop and Kiram Day, Clowns.
E Huntington, Ring Master.
Mons. Chiarini, Equestrian Manager.

Among the most conspicuous features of this superb exhibition are the following:

A new and magnificently dressed Turkish Entree, entitled "The Warriors of the Danube, or, the Defence of Kalifat." Also, an entire new scene of Equitation, by Mlle. Chiarini, "The Child of the Regiment," in which this accomplished artiste will, during the speed of her horse, beat the drum to perform a variety of military feats. Master Jesse Sands, or four Shetland Ponies. Madame Franconi, in her finished Parisian Act. Madame Chiarini in the Menage Feats. The Dancing Horses Prince and Don Juan. Great Perche Performance by the renowned German Artists. Dashing Wild Horse Act, by Lake Rivers—besides an innumerable variety of other feats. The whole to conclude with a Dramatic Sketch, adapted to the Ring, from the popular romance of "Uncle Tom's Cabin."— For full particulars see descriptive bills.

In Board of Aldermen, June 19, 1854.

ON the written application of Waldo T. Peirce, James Littlefield, and others, for a Main Drain or Common Sewer, commencing on Centre street, near the head of Prospect street, and extending down said Prospect street to Harlow street, or to such point as the Mayor and Aldermen may see fit to order, as in said application is set forth.

Ordered—That the Mayor and Aldermen repair to the place designated in said application, to examine the same and determine the necessity of said drain, on THURSDAY, the 29th day of June instant, at 7 o'clock P. M.

Ordered—That in case the Mayor and Aldermen, or a majority of the same, who may be present at said meeting, shall judge it expedient that such drain or sewer be made, they will, at the time and place of said meeting, determine upon and allow such sum for damages (if any are claimed and in their opinion should be allowed,) as any claimant may be entitled to, deducting the benefit he may receive—and said Mayor and Aldermen will also, at the time and place aforesaid, estimate and decide what person or persons, if any, are benefited and liable to be assessed for a proportional part of the charge of making, maintaining, and repairing such drain or sewer and the amount of such benefit.

Ordered—That notice to all persons, through or over whose land said drain or sewer is to be placed, be given by publishing an attested copy of said application, and of this and the foregoing orders thereon, one week in the Bangor Daily Whig and Courier, a newspaper printed in said city—the first publication to be seven days at least before the time of said meeting.

KENNEDY'S MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty; and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of the delicate texture of the human system.

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like ours.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever

BOSTON, Jan 5, 1833.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea Gideon Foster, of Charlestown, was master of the Ropehouse in that town for upwards of twenty four years, during which period Mr. Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its greatest excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it to such a manner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificates of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we here express.

A GOOD ASSORTMENT at 19 West Market Square. JOHN AYER.

DR. ORDWAY'S HUMOR DISCOVERY!

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb discovered in California, by *Dr. Kelley*, which makes it the most wonderful remedy for

Humors of All Kinds,

Liver Complaints and Chronic Diseases.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease the California Erysipelas, and Liver Complaint. The effect was miraculous, curing the man in a few days.

The natives when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.

If you have Erysipelas, three to five bottles will cure it.

If you have Scrofula, three to seven bottles will cure it.

Three to six bottles will cure Salt Rheum.

One or two bottles will cure Pimples on the face.

Two or three bottles will cure Scaly Eruptions and Scald Head.

One to three bottles will cure Nursing Sore Mouth.

One to three bottles will Cleanse the System of Biles.

Two to five bottles will cure Rheumatism.

Three or four bottles will cure old running Sores and Ulcers.

One or two bottles will cure Barber's Itch.

One to three bottles will cure Canker in the Mouth and Bowels.

For Liver Complaints and Jaundice,

Its effects are new and wonderful, removing obstructions from the Liver, opening the pores of the skin, carrying off the morbid matter, relieving the side and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA,

A fair trial will convince you there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence has been troubled with cancer for years—by taking two bottles says she is now quite well.

FOR COSTIVENESS,

One gentleman says that it was the only medicine which cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms.

A young man was sick so much with Asthma he had to leave college; three bottles cured him, and he has now resumed his studies.

One lady in Salem was perfectly cured of *Periodical Sick Headache* by the use of two bottles.

Mr Williams, of Lawrence, had humors in his Eyes for years, was cured by the use of the Humor Discovery and Blood Purifier.

For Chills and Fever, Mercurial Diseases, Taints in the system, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as the indications are favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

More evidence of the wonderful effects of the Humor Discovery and Blood Purifier—Bad Case of Erysipelas and Liver Complaint cured.

HAVERHILL, Mass., Nov. 17, 1853.

Messrs. Ordway & Wasleeb—I feel it my duty to let you know how your Humor medicine has affected me. I am of a bilious temperament and have been sick with LIVER COMPLAINT for some time, and was at last taken with Erysipelas.

I had heard your medicine spoken of, and made up my mind to give it a fair trial.

I bought a bottle, and commenced taking it. At first it made me feel quite disagreeable, sometimes sick, nauseating feeling, and frequent sharp pains in my side, chest and shoulders.

I lessened the quantity from the directions, and took for a few days less than a table spoonful a day. I began to feel better, and then took the full dose until I took the bottle. I began to feel like a new man.

I have now taken the second bottle about half up—and feel quite well. My side and stomach has not been so well for a long time.

My low spirits and despondency have entirely left me, and I feel again like myself. With many thanks for your medicine, I am yours truly, JAMES ANDREWS.

DR. ORDWAY—Dear Sir: I answer to your inquiry relating to the effect of the medicine prescribed by you in my case, I am very happy in saying that I AM CURED, and can earnestly recommend your Humor Medicine as a specific for that most disagreeable disease, Jaundice, with which I have suffered at intervals for years.

AYER'S

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with or distort facts, nor overstate their convictions. Judge then, whether this is not the medicine to trust when you must have relief for the throat or lungs; judge, too, whether every family ought not to have it by them as a safeguard against the everywhere prevailing enemy, which steals with fatal frequency upon almost every flock, and carries off the lamb from many a home?

Jackson, C. H., Jackson City, O., 20th Nov., 1852.

DR. J. C. AYER—Sir: The CHERRY PECTORAL is much inquired after. Several of our best Physicians have used it, three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them, lead to incredulity in regard to every new remedy; and it is only after undoubted evidence of value in any article, that any thing like a general confidence can be excited.

The unrivalled excellence of this combination of agents, (in the Cherry Pectoral) proved beyond cavil by repeated trial under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best gradual remedy we have for the Pulmonary Affections of this climate, at the same time sedative and expectorant—a rare combination of properties. In the hope that it will prove known reward, I subscribe myself, Respectfully your ob't servant,

Dear Sir—No one, no not one—man, woman, or child—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much used in this vicinity although not known until recently. The community should know its virtues. Yours truly,

JOHN R. KELLOGG, M. D.

What yet remains to convince the most incredulous that the *Cherry Pectoral* is all that it purports to be, viz: an unequalled remedial agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such, and we submit it to the people, believing that its virtues will fully maintain its reputation.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseases of the Lungs never before witnessed by the medical profession. (See certificates in hands of Agents.)

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine.) Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 10, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from! My advice to the suffering is—try it.

CONSUMPTION CURED.

NEW YORK, Dec. 27th, 185 .

I came to New York in the ship Telegraph; my native place is St John, New Brunswick; when I reached this city my health was very poor, had a bad cough, raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

THE AMERICAN'S FRIEND

HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living; intending to establish myself among you, which I have now done, by taking premises in New York. PURIFICATION OF THE BLOOD,

—AND—

LIVER AND BILIOUS COMPLAINTS.

The citizens of the Union suffer much from disorders of the Liver and Stomach, scarcely any are free from the influence of these destructive maladies, hence life wears fast. The fairest, perhaps the most handsome in the world, up to a certain period, when, distressing to say, many lose their teeth and good looks, while yet on the verge of life. Such sad evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when life will flow smoothly, and resemble plants in a congenial clime, where an eternal spring seems to reign.—As it regards the preservation of the human frame, and the duration of life, much can be effected, and I say fearlessly that health and life can be prolonged for many years beyond their ordinary limits, if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the directions which accompany each box.

A CASE OF WEAKNESS AND DEBILITY, OF 10 YEARS STANDING CURED BY HOLLOWAY'S PILLS

Copy of a Letter from Captain John Johnson, Astor House, New York, dated January 5th, 1854.

To PROFESSOR HOLLOWAY, 38, Corner of Ann and Nassau streets, New York.

SIR—It is with the most heartfelt pleasure I have to inform you that I have been restored to health and strength by taking your Pills. In the last ten years I suffered from a derangement of the Liver and Stomach, and was reduced to such an extremity that I gave up my ship, never expecting to go to Sea any more, as I had tried every Remedy that was recommended to me, but all to no purpose, and had given myself up in despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for eleven years past and indeed as well as ever I was in my life. You are quite at liberty to make this known for the benefit of others.

I remain, sir, yours respectfully

(Signed) JOHN JOHNSON

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds, with soreness of the body Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

DR. MORSE'S Invigorating Cordial,

—A—

Phenomenon in Medicine.

Health Restored & Life Lightened by

Dr. Morse's Invigorating Elixer, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms in search of something that should restore the lost energies of the nervous and muscular system without the drawback of subsequent prostration which so many stimulants and narcotics had been long sought. *That something has been found.* It is a vegetable production, brought from the stony deserts of Arabia Petrea, by the celebrated Professor M. Morse, who is an distinguished member of the leading scientific societies of the Old world, and a man of note as a physician, a chemist and a traveller. The herb, concentrated and combined with other vegetable medicinal extracts, are now produced in a heretofore unheard of, in these states. Our first the properties attributed to the Mandrake, this VIGORATING ELIXIR OR CORDIAL were deemed fabulous. The public mind was not prepared to believe the sun and sublime truths as related by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is perfectly irresistible.

The ELIXER removes all the evils which arise from a misuse or abuse of the various organs, which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency, the nerves and mind, necessary to the reproduction of race. Its pervading effect of feeble muscular functions, or restores vital power, it is recommended as the only thing for communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find in the Elixir, permanent relief, from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many who have so often trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will certainly remove the disorder itself. But

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic doloreux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, irritability, ... female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or structural disease, it is averred that

MORSE'S INVIGORATING ELIXER

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. ... and that all old, ... the nervous system, and that ... nerves of motion and sensation ... the ELIXER Cordial ...

CURE OF NERVOUS ...

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions to the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary, on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.

LOSS OF MEMORY,

Confusion, giddiness, rush of blood to the head, melancholy, mental debility, hysteria, wretchedness, thoughts of self destruction, fear of insanity, hypochondriasis, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propagating functions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, constipation, etc., from whatever cause arising it is, if there is any reliance to be placed on human testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specifics in the various diseases and derangements to which the delicate forms of woman render her liable. The result has heretofore been only too fatal. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has often been to utterly to paralyze the recuperative power of the nerves and the vital organization, and finally to destroy the hapless patient.

EVERY WOMAN OF SENSE

who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common to both sexes, give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. ... All directions ... to find the happy parents of healthy offspring, who could not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have been restored by using it and not in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

or consumptive habits, are restored by the use of a bottle or two to bloom and vigor, changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are some of the sad and melancholy effects of the early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forbodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness; indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view, the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and source of diseases in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious, though alluring practice, destructive both to mind and body.

CAUTION.
